**WHAT DO YOU CALL A
FRUITY POPSTAR?
KATY PEARLY**

HAHA

Did you know?

There are around 3,000 varieties of pear in the world, but the most common in the UK is the Conference pear. The climate in the UK is perfect for growing pears.

Pear trees can grow up to 20 metres tall, and live for around 250 years!
The wood of the pear tree is used to make musical instruments, such as a recorder or flute, and wooden kitchen spoons!

The flowers on a pear tree are pink or white blossom, and are related to the rose.
